Daily Pulses Report
06th November 2025

News Highlights

- *IMD has issued a yellow alert for Tamil Nadu, Andhra Pradesh, and Karnataka, forecasting heavy rain, thunderstorms, and squally winds on Thursday. Kerala remains outside the alert zone. While Tamil Nadu may see below-normal November rainfall, Kerala, Karnataka, and Andhra Pradesh are likely to receive slightly above-normal rain.*
- *Rajasthan's Rabi pulses sowing reached 1.25 million ha as of November 3, 2025, up 30.13% from last year's 0.96 million ha. Chana area rose sharply by 30.47% to 1.25 million ha, while other pulses fell 8.11% to 0.07 million ha.*
- *The Gujarat government will begin procurement of Kharif crops worth ₹15,000 crore from November 9 under the PM-AASHA scheme, covering groundnut, moong, urad, and soybean at MSP. Over 300 centres have been set up for the drive. MSPs have been raised — groundnut ₹7,263, moong ₹8,768, urad ₹7,800, and soybean ₹5,328 per quintal. Each farmer can sell up to 120 maund of groundnut. The move follows crop losses in 16,000 villages due to unseasonal rains.*
- *Australia Weather: Low-pressure troughs brought widespread showers and thunderstorms across northeast NSW and southeast to central Queensland between October 26 and November 1. A cold front later moved from southwest WA towards southeast Australia, adding to rainfall activity. Most of eastern Australia received 5–25mm, while storm-hit areas in Qld and NSW saw 50–100mm or more. The highest weekly rainfall was 254mm at Brays Creek (NSW), with a daily peak of 119mm at Rosebank.*
- *Chickpea prices are firm, with farmers selling at around $560/t on farm and $610/MT delivered to Brisbane port, making exports attractive. Harvest is nearly 90% complete in Queensland, and strong shipping demand is driving nearby deliveries. Limited market arrivals are keeping supplies tight as most growers focus on finishing harvest north of Moree.*
- *Ukraine exported 3.2 million MT of grains and oilseeds during the first four months of MY 2025-26, according to the Ukrainian Grain Association. October exports rose 32% from September to 2.4 million MT, led by a sharp rise in corn exports (1.1 million MT) versus just 61,000 MT in September. Soybean exports also surged to 230,000 MT, nearly triple the previous month. In contrast,*
