Daily Pulses Report
21st January 2026

News Highlights

- *The IMD has forecast a wet spell over the Western Himalayan region for the next week due to an active Western Disturbance, with widespread rain and snowfall expected from January 22–26 and isolated heavy snowfall over Kashmir, Himachal Pradesh, and Uttarakhand. Light to moderate rainfall is also likely across northwest India's plains, including Punjab, Haryana, western Uttar Pradesh, and parts of Rajasthan during January 22–24.*
- *Government procurement of Kharif 2025–26 urad at MSP has crossed 50,000 MT, with another 50,000 MT targeted before procurement closes, a senior official said. The sharp rise in urad prices is being driven by acute domestic shortages, as most available Kharif arrivals are being absorbed by government buying, leaving the market reliant on imports from Myanmar and Brazil.*
- *NAFED's latest auction saw Masoor, Moong, Mustard Seed, and Tur traded across key producing states. Masoor prices in Madhya Pradesh ranged around ₹5,801–5,851/quintal, while Moong prices varied by season and state, reaching up to about ₹7,504 in MP (S-25). Mustard seed traded near ₹6,476–6,665 in Haryana and Rajasthan, and Tur in Uttar Pradesh was around ₹6,003/quintal.*
- *Australian chana arrivals at Indian ports continue, with multiple vessels discharging at Mundra and Kandla. M.V. TAZ LUCKY has completed discharge of 34,270 MT at Mundra, while M.V. BUNUN YOUTH (33,000 MT) has reached Mundra and is set to unload soon. At Kandla, M.V. SELGRACE DILMAR has arrived with 24,083 MT and is currently unloading chana.*
- *Rabi pulses acreage has increased to 13.7 million hectares, up 2.8% from 13.32 million hectares last year. Chana area rose 5.1% to 9.59 million hectares from 9.12 million hectares, while masoor acreage edged up to 1.81 million hectares from 1.77 million hectares, with sowing of both crops now complete.*
- *US Senator Steve Daines has urged faster progress in India–US trade talks, pressing for improved market access for American pulses during his January 17–19 visit to India. Representing Montana, the largest US pulse-producing state, Daines emphasized the need for favourable pulse provisions in any future bilateral trade agreement with India, the world's biggest consumer.*
- *European Commission President Ursula von der Leyen said the EU and India are nearing a "historic" free trade agreement that could become the largest bilateral deal ever. Often called the "mother of all agreements," it is expected to bring major tariff cuts, wider market access, and deeper economic cooperation between the two economies.*
