Daily Pulses Report 05th October 2026

News Highlights

- *IMD has forecast heavy rainfall in Karnataka, Kerala, Mahe, Tamil Nadu, Puducherry and Karaikal till tomorrow. Southwest monsoon withdrawal is likely to advance from most parts of Marathwada and Vidarbha and some more areas of Maharashtra and Chhattisgarh over the next 2–3 days. Thunderstorms and lightning are also expected in several regions, while strong surface winds are forecast over Andhra Pradesh for the next two days.*
- *Today's market saw firmness in tur, with Akola and Solapur up ₹300/q, while Chennai declined ₹50. Chana gained ₹100–125, and urad was mostly steady with Delhi SQ up ₹50. Moong strengthened in Jaipur and Jabalpur, while masoor remained unchanged across markets. Matar was largely steady, and Kabuli 42–44 declined ₹100 in Indore.*
- *Urad prices moved higher across major markets during the week ended 3 Oct 2026, supported by higher Myanmar import costs, rupee depreciation and lower Myanmar port stocks. However, increased kharif arrivals and regular Brazil supplies limited gains, keeping the outlook range-bound to weak. Quality kharif urad received selective support, while intermittent rains during harvesting raised concerns over quality, moisture and yields in some producing areas.*
- *Tur outlook remains firm as of 3 Oct 2026, supported by higher import costs, lower arrivals, limited spot supply and crop concerns. Drought conditions in Karnataka, Maharashtra and Andhra Pradesh have raised concerns over kharif Tur output, while Diwali demand will be key to sustaining higher Tur dal prices.*
- *Chana prices are expected to remain firm as of 3 Oct 2026, supported by lower arrivals, limited selling, stronger dal demand and firm imported chana prices. Further gains will depend on mill buying and government stock sales, while rainfall deficits and low soil moisture remain a concern for rabi sowing.*
- *Australia exported 185,334 MT of chickpeas in August, more than double July's 77,541 MT. Shipments to India surged 152% to 50,876 MT from 33,997 MT in July, as the 2026–27 chickpea harvest began in Queensland. Exports are expected to remain strong as harvesting expands across southern Queensland and northern New South Wales.*
- *Australia exported 117,018 MT of lentils in August, up 34% from July, mainly driven by higher shipments to India. India received 86,429 MT in August, taking total Jan–Aug exports to 141,059 MT. Bangladesh followed with 18,397 MT, while Nepal and Sri Lanka received 5,275 MT and 4,273 MT, respectively.*
