Daily Pulses Report **23rd September 2026**

News Highlights

- *IMD has issued a red alert for heavy to very heavy rainfall over Telangana, Chhattisgarh, Coastal Andhra Pradesh and Odisha, with heavy rain also expected across several other states including Bihar, Jharkhand, Maharashtra, Kerala and the Northeast. Thunderstorms with lightning and gusty winds are likely over parts of eastern and island regions, while Delhi is expected to remain mainly clear with temperatures around 24.8–34°C.*
- *Today's pulse market saw a firm tone across most centres, with tur up ₹50 in Akola and Solapur while Chennai declined ₹25. Chana gained ₹50–125, urad rose ₹50–100 and moong increased ₹100–175; masoor was up ₹50 in Delhi, while matar, Jabalpur moong and Indore kabuli remained mostly unchanged.*
- *India's pulses imports rose 62% YoY to 1.7 million MT during April–July FY27, with import value up 32% to \$0.97 billion, amid concerns over domestic production. Masoor imports surged 227% to 0.57 million MT, yellow pea rose 91% to 0.52 million MT, while tur increased 7% to 0.31 million MT and urad declined 20% to 0.18 million MT. Import momentum may moderate ahead due to higher global prices, supply disruptions and evolving kharif/rabi crop prospects.*
- *Haryana will begin moong procurement from October 1 to November 15 across 38 mandis, with soybean and groundnut procurement scheduled from October 15 and November 1, respectively. Moong production is projected at 34,326 MT, despite acreage falling to 85,815 acres from 147,650 acres last year. The state has also fixed the moong MSP at ₹8,780/quintal and will conduct PSS procurement using biometric authentication.*
- *The highest bids for Nafed Chana Sell Tenders on September 23, 2026, where Maharashtra (Hingoli) led the Rabi-26 season stock with the highest bid of 7,211, while Madhya Pradesh saw the largest net jump of 300. In comparison, the older Rabi-24 season stock in Rajasthan (Baran) fetched a significantly lower top bid of 5,909.*
- *Australia recorded scattered rainfall across several agricultural regions during the week, with 10–100 mm across western Tasmania, parts of Victoria and southwest Western Australia. Northern Queensland received 10–50 mm, while parts of inland WA recorded 10–25 mm; the highest weekly total was 88 mm at Mount Read, Tasmania.*
- *Canada's 2026-27 chickpea production is forecast at 0.40 million MT, down from 0.48 million MT last year but still the second-largest crop on record. Dry bean production is estimated at 0.35 million MT, while canary seed output is projected at 0.14 million MT, down sharply from 0.23 million MT in 2025-26.*
